

Find the storage you already have before buying any. Everything here is reversible: no drilling.

THE THREE UNUSED VOLUMES

- ☐ Under the bed. Bed risers add another 15cm.
- ☐ The vertical half of every cupboard. Most are half air.
- ☐ The back of every door in the flat.

- ☐ Tension rods: under sinks, in cupboards, as rails
- ☐ Over-door hooks and racks
- ☐ Adhesive hooks, believing the weight limits
- ☐ Leaning shelves that need no fixing
- ☐ Bed risers
- ☐ Furniture with storage inside it

- ☐ Rugs to define zones
- ☐ Bookshelf perpendicular as a divider
- ☐ A folding screen for the bit you avoid looking at
- ☐ Keep furniture low on one side
- ☐ Fold-down and nesting furniture

- ☐ One in, one out, non-negotiable, for everything
- ☐ Nothing stored on the floor
- ☐ All furniture does two jobs
- ☐ Resist bulk buying. The saving is not worth the cubic metre.
